EDUCATION

Duke University, Durham, NC

Expected: May 2028

Bachelor of Arts: Visual Media Studies, *Minor*: Journalism, *Certificate*: Innovation & Entrepreneurship

Relevant Coursework: Digital Imaging, Web-based Multimedia Communications, Experimental Interface Design, Social Marketing, Customer Empathy Brand Design, Product Management I & II

PROFESSIONAL EXPERIENCE

Duke University Emergence Lab, Durham NC

Jan 2025 – April 2026

UI Designer & Research Assistant

- Translated complex AI and computational creativity concepts into 10+ interactive interfaces and prototypes, advancing the Emergence Lab's interdisciplinary research on human-AI creative systems.
- Synthesized insights across 1,000+ research papers and 80+ conceptual categories to inform 50+ interface features and system behaviors.

Duke University Culture I/O Lab, Durham, NC

Jun 2025 – April 2026

Product Design Research Assistant

- Conducted product design research supporting the Culture I/O Lab's investigation of how sensing technologies integrated into everyday environments shape human perception, trust, and behavior.
- Designed and refined 2 3D-modeled sensor prototypes through 20+ iterations, leveraging user research to develop design principles for future product and experience strategy.

Breva AI, Durham, NC

Jun 2025 – March 2026

Brand Design Intern

- Supported Breva AI's AI-powered marketing intelligence platform by translating AI-generated market insights into 500+ automated, client-facing reports for partner companies, enabling clear, actionable business recommendations.
- Developed scalable visual storytelling frameworks and client-facing marketing assets that standardized brand voice and strengthened external communications.
- Built automated design workflows that reduced report production time by ~90%, transitioning reporting from manual creation to scalable batch delivery across hundreds of partner companies.

Duke Tech Policy, Durham, NC

Jan 2026 – April 2026

Research Assistant

- Analyzed AI's impact across creative industries through intellectual property/copyright law, market concentration, and child protection, translating complex regulatory systems into structured strategic insights.
- Evaluated legal cases, policy frameworks, and regulatory bodies to assess implications for creators, platforms, and market power; authored 2 sections of a white paper and developed 4 policy recommendations

The Standard Agency, Raleigh, NC

Aug 2025 – Dec 2025

Consultant

- Conducted 22+ interviews and surveys with 100+ marketing leaders and prospective clients to assess demand, pricing, and production needs for the agency's expansion into video marketing services.
- Synthesized research findings to identify trends in content demand, budget expectations, and operational bottlenecks across industries.
- Presented research findings to agency leadership, translating customer insights into recommendations for service positioning and go-to-market strategy.

Duke OIT, Durham, NC

May 2025 – July 2025

Front-end Development + UI/UX Intern

- Led design and development of a React-based front end for APIARY, a cybersecurity platform, translating complex security workflows into intuitive, user-centered tools.
- Collaborated with Duke OIT and IT Security stakeholders to align product requirements with operational security needs for 300+ clients, designing and implementing a responsive UI with advanced search/filter and log-viewing features to improve workflow efficiency.
- Integrated with a prebuilt backend API and prepared the platform for open-source deployment across academic institutions, delivering a scalable and accessible solution emphasizing maintainability and user-centered interaction.

EXTRACURRICULAR ACTIVITIES & LEADERSHIP

Duke Small Town Records (Vice President of Visual Media)

May 2025 – Present

- Directed visual media and brand strategy across 8+ student artists, producing 25+ promotional graphics/videos and 10+ merchandise designs supporting 10+ releases, campaigns, and festivals.
- Led a team of 8+ creatives to develop cohesive visual identities and scalable branding systems across artist campaigns and label marketing.

The Collective (Communications Chair)

May 2025 – Present

- Created branding and communication strategy for Duke's fashion and modeling student organization; designed high-impact digital campaigns, posters, and visual assets to amplify visibility and drive community engagement.
- Coordinated with content and production teams to ensure brand consistency across physical and digital platforms.
